AT FORT CONSTITUTION.

Battery K at Work Mounting
the Rapid Fire Guns.

Captain Curtis Drilling His Men and
Says Portsmouth is Well Protected

At Fort Constitution today the contractors are busily engaged in making ready the foundation for the gun carriages to be mounted in a few days. This work will probably be done by Captain Curtis and his company of regular artillery. All of his men are thoroughly drilled in the mounting and handling of this class of armament, and previous to being stationed here, were engaged in the work of mounting ten and twelve inch disappearing guns at Fort Schuyler, New York. Captain Curtis says that he will soon post notices for the recruiting of the command up to 200. The men are now poorly quartered and are obliged to sleep in an old shed upon the post interior. This is soon to be rectified, as plans for barracks have been perfected, and the building will soon be constructed. More room is necessary for the men and better accommodations. It is probable that land adjoining will be condemned and used in connection with the post. Men of Company K were busily engaged in pitching tents about the fortifications and campfires were burning about the mess quarters. All of the equipments belonging to the command have not as yet arrived, such as cooking utensils, etc.

Captain Curtis has found suitable quarters with the sergeant in charge, and has fitted up an office as headquarters. This morning Rear Admiral Carpenter of the navy yard paid his respects to Captain Curtis at the fort, and for sometime these men talked over the defense of Portsmouth harbor. The harbor is being mined, the first preliminary having been begun today, when the lightship tender Lilac marked out the channel with buoys. About twenty-five mines will be planted. Colonel Ellwell, collector of the port, has received orders in regard to the closing of the port and the course to pursue in going to and fro. The mine field will extend across the river opposite Fort Point. In talking with a number of the men belonging to Company K, they say that out of their forty-five men one half have been in the service for fifteen years. They are not only drilled in artillery work, but in infantry drills. They claim that with the protection now undergoing construction that no enemy could come near the harbor.

Capt. Curtis feels confident that this city will not be molested. He says that there need be no fear from the citizens of his city of our invasion. Through the request of Capt. Curtis, Admiral Carpenter has delivered for use at Fort Constitution, a twenty-six foot cutter to be used in conveying the men across the river to Fort McClary and Gerrish island. Later a team launch will be furnished for a like purpose. This afternoon the men were given a drill about the harbor, beside the regular drill, which occurs inside the old fort every day.

Major Hoxie of the United States corps of engineers, with headquarters at Fort-land, arrived here this evening on the towboat Sylvester Ward. The major will assist in the mining of the harbor, for which the towboat has been engaged.

This is Patriotism

Prof. J. M. Munyon, president of Munyon's Homeopathic Home Remedy company, who is now in London on a business trip, has cabled President McKinley as follows:

"William McKinley, President, Washington, D. C.—You may draw on my Philadelphia home for five hundred thousand dollars worth of medicines as my contribution to the army and navy. England is with us."

JAMES MUNYON MUXTON.

Funeral of Jane Neal

The funeral of Mrs. Jane Neal took place from the Church of the Immaculate Conception, Wednesday morning, Rev. Father O'Callaghan celebrating High Requiem Mass. The church was crowded with relatives and friends of the deceased, while the floral tributes were rich and beautiful. The pall bearers were Messrs. Thomas Leary, John Flynn, James McCarthy and James McCarthy, Jr. Funeral Director O. W. Ham directed the funeral.

The Fortunes of War

Many of the young ladies, who are "steady company" belong to the military, are greatly concerned over the war and the prospect of the young men being called to do battle for the nation. Among the dear creatures who thought they were likely to be deprived of lovers was a young woman employed in a shoe factory. She was greatly agitated and when the call came for the young men to report for physical examination she fell into a deep sorrow at the thought of losing her beau.

A Day and a Night

When Georgia Caine made such a pronounced hit as the dashing "Girl from Paris," the public said that it was strange she had so far been overlooked in the Hoyt comedies. It seems natural therefore that she should be announced to appear as Mlle. Bawa Touraine, the leading female role of Hoyt's "A Day and a Night." The play offering for '98, which is to be presented at Music hall on Friday evening. Miss Caine is just the leading lady for a musical farce. She has beauty, youth and grace, and sings well. In addition to this she has that indefinable charm known as dash. She has her audience with her from the moment she makes her entrance, and the spirit and zest of her acting never allows this interest to flag. Others in the company are Otto Harlan, Villa Knox, William Devore, Nellie O'Neill, Lew Bloom, the Clayton sister, W. H. Curry, Jane Cooper and Thomas Evans. Mr. Hoyt will be with the company and the performance is under his personal direction.

At Fort McClary

The force of workmen at Fort McClary were engaged yesterday in mounting the smooth guns upon temporary carriages recently erected for them. Three in all will be mounted, the work being done under the supervision of a detail from battery K, sent across the river daily to take charge of the fort until the arrival of more regulars.

River and Harbor

Tug Iva towed the barge Boies from rose up river to Exeter this morning.

The ferryboat in making the landing on this side of the river yesterday broke off two planks from the ship.

Schooner Anne A. Booth was towed to Dover by the tug Mathes today.

Tug Storm King arrived here yesterday after the barges Atlas and Meade.

Schooner Copy, Wilson, Bangor for Boston, and sloop Twilight, Nevins, Portland for Boston was reported below this morning.

Musical

The pupils of Mrs. W. S. Spinney (formerly Miss Flora Hayes) of Kittery gave a charming musical on Wednesday evening at the Second Christian church, which had a select attendance.

The order was rich with gems and found heartiest reception from the many present.

The entertainment was for the benefit of the I O G T and Mrs. Spinney and her class received many compliments for the able work rendered.

Shipkeepers Recalled

John W. Leavitt of Dover, C. L. Favour of Kittery Point and Herbert C. Ferri of Portsmouth were called on the navy yard today by the secretary of the navy as shipkeepers for the Essex. The placing of the Essex in charge of shipkeepers relieved Mate J. L. Vennard U. S. N., and his crew of seamen from further duty in that connection.

Inspected the Forts

Captain Winfield S. Edgerly, U. S. A., arrived in town last evening accompanied by Mrs. Edgerly and registered at the Rockingham. Today the captain visited New-castle, and together with Captain Curtis made an inspection of Fort Constitution and also the fort across the river.

TO RUN A BATTLESHIP

In Times of Peace it is Over a Thousand a Day

The average daily cost of maintaining a first-class battleship on a war footing is \$1500. Reliable estimates cannot be made when the fortunes of war must be taken into account, but the cost of maintaining our navy on its present footing immediately before the firing of the first gun in actual conflict is known. That cost is \$50,000 for each day. A year ago the cost was a trifle less than one half of that amount. The mounting of the numerous new purchases and revivals, together with the addition of the war strength needed on ships before on commission, has been the cause of the great increase in expense.

For an example of the cost of maintaining a battleship in time of peace, when war is not even threatening, may be cited the cost of maintaining the New York the most expensive ship in our navy. The cost for one year was \$31,065.60 or an average of \$1086.29 per day.

The various items that go to make up this total annual cost will apply for the present purpose to our armored cruisers and battleships, though, of course, varying according to constantly changing circumstances, and now being increased by the war footing on which our navy rests. Of the \$31,065.60 spent by the New York in 1897 \$23,767.76 was for the pay of the officers, crew and marines; rations cost \$3,512.00; equipment, \$6,835.21; navigation, \$3,216.58; ordnance, \$14,813.70; construction and repairs, \$9,163.95; steam engineering, \$28,261.26. Then there were incidental expenses, navy yard repairs, medicine and surgery and similar items.

The records show that the pay of the officers, crew and marines of the New York, were greater than that of any other vessel, while the rations, medicine and surgery and coal accounts were less. When we add the separate costs of maintaining all ships in commission, for last year, we have a total of \$8,338,549.71; or more than \$21,000 a day. During each day of last week the cost was double that amount.

Monthly Session

The Missionary society of the Middle street Baptist church had its monthly session at the chapel on Wednesday afternoon and evening. The room was in picturesque decorations, the attendance was large, the work accomplished of considerable import, the supper a genuine feast and the literary features of the evening of a deal of interest.

The program was entitled "The Parliament of Religion," and represented the India, China, Burmah religions, the following participating in appropriate costume: Misses Abbie Herriott, Clara Loomer, Maud McNeil, Phoebe Dikeshire and Hazel Gerry. The group was led by Mrs. Lewis L. Staples, and the music was in charge of Miss Mabel V. Simpson.

The committee was in charge of Miss Staples, Mrs. C. H. Clough, Mrs. H. A. Yeaton and Mrs. Frances Kierman.

The Missionary society gave superior entertainment in every detail as usual.

Katherine Huber

Katherine Huber and her own company will be at the Music hall next week. This great New England favorite presents several new plays which will be given in this city for the first time. In the company is Grace Hamilton, Belle Gaffney, Harry Biograph, Camille Gordon, Franklyn Riehl, Leonard Rowe, Morris McHugh, Wm. Healy, Harry Denslow and others. The repertoire for the week comprises on Monday evening, "Doris," Tuesday evening, "A Heroine in Rags," Wednesday evening, "Camille," Thursday evening, "The Hand of Fate," Friday evening, "The Cleave coat Case," Saturday evening, "Pink Dominoes." The play for Saturday in three is to be announced.

After a girl has had a quarrel with another she always makes up her mind what she won't say when she meets her and then says it.

ROSTER OF THE THIRD

Something About the Regiment That May Go to the Front

Although Colonel Rolfe of the Third regiment, which has been selected to go to the front in response to the President's call, is the senior colonel in the regiment, his command is the junior regiment of the state. It was organized in 1880 and Col. Rolfe is its third commander. He has had his position for a little less than four years, having been commissioned in May, 1894.

In the last New Hampshire Blue Book, the field and staff official roster was given as follows:

Colonel, Robert H. Rolfe, Concord; lieutenant colonel, William C. Trenoweth, Concord; majors, Edmund Tetley of Laconia, William Tuthery of Concord and Robert Burns of Plymouth; surgeon, Capt. Arthur K. Day of Concord, assistant surgeon, Capt. George H. Celby, Plymouth; paymaster, the Rev. H. P. Dawsey, Concord; chaplain, first lieutenant, George D. Waldron, Concord; adjutant, first lieutenant, Fred G. Carter, Lebanon, quartermaster, and first lieutenant Harley B. Robie, Concord, inspector of mills practice.

The companies are as follows:

A company, Portsmouth—Capt. Lemuel Pope.

C company, Concord—Capt. Charles H. Stannels, Lieutenants Arthur F. McKellar and Alfred L. Trenoweth.

D company, Claremont—Capt. John C. Timson, Lieutenants Walter F. Walker and Fred J. Miller.

E company, Concord—Capt. Otis G. Hammond, Lieutenants Thomas F. Clifford and Charles L. Mason.

F company, Bristol—Capt. Orrin B. Roy.

G company, Lebanon—Capt. George A. Freese, Lieutenants Charles E. Cutting and Charles G. Pillsbury.

H company, Franklin—Capt. (and brevet major) Amos S. Ripley, Lieutenants Albion W. Rollins and Benjamin N. Judkins.

K company, Laconia—Capt. Edward S. Cook, Lieutenants William A. Sanborn and Allen M. Avery.

FOR RECRUITING

Instructions Issued by the War Department Governing Same

The instructions issued by the war department to govern recruiting in the regular army in time of war give the weight required for men enlisting for various branches of the service, together with a table showing the physical proportions for height, weight and chest measurement. For the infantry and the artillery branch the height must be not less than 5 feet 4 inches, and weight not less than 120 pounds and not more than 190 pounds.

For the cavalry branch the height must be not less than 5 feet 4 inches and not more than 5 feet 10 inches and weight not to exceed 165 pounds. This minimum weight is prescribed for the cavalry, but the chest measures must be satisfactory.

The following is the table of physical proportions prescribed for height, weight and chest measurement:

| Height | Weight | Chest measurement |
|-----------|--------|-------------------|
| 64 inches | 128 | 32 |
| 65 inches | 130 | 32 |
| 66 inches | 132 | 32 1-2 |
| 67 inches | 134 | 33 |
| 68 inches | 141 | 33 1-4 |
| 69 inches | 148 | 33 1-2 |
| 70 inches | 155 | 34 |
| 71 inches | 162 | 34 1-4 |
| 72 inches | 169 | 34 3-4 |
| 73 inches | 176 | 35 1-4 |

Passed Examination

Stephen Decatur, Esq., who offered his services to the government, has been examined at Washington and passed a very flattering examination. He will undoubtedly be assigned to some important position in the navy.

Hearing a Cantata

The North church choir is arranging a musical treat for some Sunday evening the latter part of this month. Four quartettes will render the beautiful sacred cantata, "The Holy City," and will commence rehearsing for the same right away.

The devil succeeds because he never knows when he's been snubbed.

PLANTING THE MINES

When Completed No Craft Can Enter the Harbor Unless So Permitted

Tugs Sylvester L. Ward, Capt. Dosez, and Fanny C. Capt. Peterson, arrived here yesterday from Portland with the sloop Ajax and Kipple and all the paraphernalia necessary for mining our harbor.

The work will be done under the direct supervision of Major Hoxie and the government engineers who mined Portland harbor. The mines used were all brought here with the tugs and it is expected that the work of planting them will be completed today.

There are 21 of these vessel destroyers and they are arranged so that it is impossible for any craft, without the consent of the officers at the fort in charge of the keyhole, to enter the channel.

Each mine is loaded with 101 pounds of gun cotton and anchored with a 1000 pound anchor so that at dead low water they are only three feet below the surface. Any vessel touching one of these mines when the current is on and tipping it but the least bit will explode the mine.

A small channel, marked by buoys, is left open so that vessels with a pilot can safely enter the harbor in the daytime but from eight o'clock in the evening until four o'clock in the morning this electric current is turned on in the hidden volcanoes and the harbor is closed against all vessels.

A tug will patrol just outside of the larger line and warn all vessels of the danger and also to pilot the tug through the correct channel.

Sampson Sails to Seize Porto Rico

A special dispatch from Washington says that Admiral Sampson and part of his fleet have sailed from Key West, after sailing to the fullest capacity, with the object of seizing Porto Rico, protecting the Oregon on her way from Brazil, and capturing Spanish warships.

The flying squadron at Hampton roads also has orders to sail within 24 hours.

A woman's first thought when she sees company coming is her canned fruit.

For want local news! Read the Herald. More local news than all other local dailies combined. Try it.

THURSDAY, MAY 5, 1898.

The beginning of the end.

May 1 was truly a living time in Manila.

Maybe General Lee's ticket home has a return coupon attached.

Evidently Commodore Dewey's brave boys "Remember the Mai."

Wonder if General Woodford will go back to Madrid as soon as General Lee will to Havana.

Commodore Dewey said he would take Manila in thirty-eight minutes. Half a day was good enough time.

The deadly work of American gunners will begin to make an impression on the powers of Europe in the course of time.

The captain general of the Philippine islands is due for another proclamation of those "social exorcismes," the Yankee.

It may almost be expected that Spain will now make further representations to the powers against the precipitate state of the United States.

Seventy per cent of Spain's population cannot read or write. And the other thirty per cent will not care to read the full and accurate returns from Manila.

Chinese Cookery.

The Chinese are a nation of cooks. There is scarcely an individual in their vast community who is not more or less competent to cook himself a respectable dinner.

Chinese tradition points to a date some thousands of years before the Christian era at which an inspired ruler of old first taught mankind the application of fire to food. But, without wishing to be irreverent, we think it desirable to confine our investigations to periods of greater historical certainty.

The present sits down to dinner cooked by the hand of his wife or daughter-in-law. In large establishments the cooks are invariably men.

Half a dozen cooks will squat round a bucket of steaming rice and from that to six small silver dishes of stewed cabbage, onions, scraps of fat pork, cheap fish, etc. They fill their bowls a discretion from the bucket. They help themselves discreetly with their chopsticks from the various relishes provided.

On ordinary occasions even a wealthy Chinese will sit down to some such simple fare, served indeed on a table instead of on the ground, but in almost equally simple style. It is only when a banquet is substituted for the usual meal that eating is treated seriously as a fine art, in a manner worthy its importance to the human race. Then the guests will assemble between 5 and 6 p. m. and will remain steadily at the table until any hour from 10 p. m. to midnight. Pipes are lighted between the courses, and a whiff of two light tobacco smoke is inhaled into the lungs, while within easy reach of the table, if the festivity is at all on a grand scale, the dining room of a theatrical performance continues almost without intermission. — New York Ledger.

Edison Won't Talk into a Phonograph.

Mr. Edison has persistently refused to register his voice into a phonograph cylinder for reproduction, according to an anecdotal biography of the inventor.

The Ladies Home Journal. "To some friends who urged him to talk into one of these machines he gave his reason: 'I would make no such deal with a device that would make my voice a part of the Edison talk.' No, no; none of that kind." The tone of voice in which he states his objection made it clearly apparent that he could not be coaxed nor dragged into granting the request, even though he had an offer of \$10,000 for a five-minute talk.

In perfecting the phonograph, he has, of course, been obliged to talk into the machine frequently, but the cylinder is always wiped so that his voice cannot be reproduced. To one close friend, however, he reluctantly gave a cylinder recording a few of his words, and to a young man who particularly interested him in the story of which is recorded his favorite story. These are the only two cylinders.

Two Points of View.

Diggs-Senator Power seems to be a man of very broad view.

Yes, indeed. I don't believe it possible to bring up a question that he won't straddle. — Chicago News.

DEEDS OF RUFFIANS.

New York Militiamen Who Disgraced Their Uniforms.

Twenty of them under arrest.

Patrol Established to Check a Propensity to Lawlessness.

New York, May 5.—Captain Wilson of the Sixty-fifth regiment of Buffalo, now in camp at Hempstead Plains, has arrested 20 soldiers for leaving camp after hours and destroying property in a saloon at Westbury.

During the past two nights many of the volunteers stationed at Camp Black have got out of the grounds after "taps" and caused disturbances in nearby villages. A saloonkeeper of Westbury, who is said to have incurred the displeasure of members of the Sixty-fifth and Sixty-ninth regiments, has suffered considerably at their hands. They broke windows and chairs and destroyed a pool table. Some of the men carelessly wrote their names with chalk upon the table before wrecking it, and this led to their arrest.

The orderly members of these two organizations are very indignant over the acts of the disorderly contingent. Depredations of various kinds, including the killing of 30 chickens and a cow, are reported by farmers in the vicinity of the camp. Major General Roe, as a cure of these occurrences, has issued orders shutting off passes and directing that an extra guard be placed about the camp. Squads have also been ordered to patrol the villages of Westbury, Garden City and Hempstead to arrest any soldiers attempting unruly conduct. It is stated that the damage done by soldiers will foot in nearly \$1000.

A soldier named Smith, said to be a member of the Sixty-fifth regiment, is under arrest charged with striking a corporal on the head with a soda water bottle while a non-commissioned officer was attempting to arrest him.

HAMILTON FUMLED.

One of the Reasons Why the Boston Lost Wednesday.

New York, May 5.—In the seventh inning of the Boston-New York game, with three men on bases, Davis rapped a good single to center field, which was fumbled by Hamilton. Three runners passed over the rubber and the New Yorks were never headed. Score:

BULLETIN HER HEART

Woman's Life Taken by Her Revengeful Husband.

Killed in House of a Friend.

Murderer Well Known in North-eastern New Hampshire.

Berlin, N. H., May 5.—The residents of the northeastern part of New Hampshire were startled Wednesday by the report that another tragedy had been committed within its limits—that a woman's life was taken at the hands of her husband in the house of a friend of the unfortunate woman, followed by a terrible struggle between the murderer and another who changed to be present.

The alleged murderer is Benjamin F. Deane, the keeper of a small hotel in this town. He is under arrest on the charge of killing his wife by shooting her through the heart with a 32 caliber revolver.

The woman who now lies cold in death left her husband last Thursday and took up her abode at the house of a friend named Mrs. Schaffer. Matters apparently went along smoothly until yesterday, when Deane, after buying several cartridges, proceeded to the Schaffer residence and asked his wife if she would return and live with him. Upon receiving a negative answer, he pulled a revolver from his pocket and fired at her, the shot hitting her in the heart.

The only witnesses to the affair were Mrs. Schaffer and John Darling. The latter noticed the drawn revolver and grabbed Deane around the neck and arms with the idea in view of getting possession of the weapon. But Deane held the damage done by soldiers will foot in nearly \$1000.

A soldier named Smith, said to be a member of the Sixty-fifth regiment, is under arrest charged with striking a corporal on the head with a soda water bottle while a non-commissioned officer was attempting to arrest him.

HAMILTON FUMLED.

One of the Reasons Why the Boston Lost Wednesday.

New York, May 5.—In the seventh inning of the Boston-New York game, with three men on bases, Davis rapped a good single to center field, which was fumbled by Hamilton. Three runners passed over the rubber and the New Yorks were never headed. Score:

| Boston | A | R | B | P | O | A | E |

Edison Won't Talk into a Phonograph.

Mr. Edison has persistently refused to register his voice into a phonograph cylinder for reproduction, according to an anecdotal biography of the inventor.

The Ladies Home Journal. "To some friends who urged him to talk into one of these machines he gave his reason: 'I would make no such deal with a device that would make my voice a part of the Edison talk.' No, no; none of that kind." The tone of voice in which he states his objection made it clearly apparent that he could not be coaxed nor dragged into granting the request, even though he had an offer of \$10,000 for a five-minute talk.

In perfecting the phonograph, he has, of course, been obliged to talk into the machine frequently, but the cylinder is always wiped so that his voice cannot be reproduced. To one close friend, however, he reluctantly gave a cylinder recording a few of his words, and to a young man who particularly interested him in the story of which is recorded his favorite story. These are the only two cylinders.

Two Points of View.

Diggs-Senator Power seems to be a man of very broad view.

Yes, indeed. I don't believe it possible to bring up a question that he won't straddle. — Chicago News.

FOLK TALES OF CATS.

THE ORIGIN OF TABBY IS TRACED BACK TO THE EGYPTIANS.

Mr. Henry Wynn's Feline Friend and How It Saved Him From Death by Starvation.

Some scholarly enthusiast should write a volume on the folklore of cats. So long as we believed that the domestic cat descended from the wild European species its appearance in legends and fairy tales was in no way more puzzling than that of the fox or the wolf, but science has wrecked that comfortable theory, and it seems to follow that all the folklore of cats has arisen in historic times—a conclusion well worth the study of those who take interest in such subjects. Our cats are a heritage from ancient Egypt. Max Muller pronounces that even the Sanskrit word is "comparatively recent." India received the animal probably from the Greeks, who themselves had only lately become acquainted with it.

The intelligent schoolboy will leer at this assertion. Does not Aristotle refer to the cat, and is not galle a cat? The husbandman in "The Plowman" suspects it. "Any loo," he says, "I heard a galle making a great noise last night." What could this household pet be unless a cat? Professor Rolleston has demonstrated that it could be the white breasted marten and, in fact, a delightful little creature for those who could hear its snarl, and one not to be surprised at missing. It would seem that the Romans were not familiar with cats, even in Pliny's day for he evidently thinks that they snarled like a gale. It is alleged that the whole of Europe was infested less than half a dozen allusions to cats before the Christian era.

Upon the other hand, a cat is represented in one of the grandest and apparently one of the oldest Egyptian tombs. It has just caught a mouse and holds it. No doubt there was intercourse between the Egyptians and the Greeks. But in northern mythology the chariot of Freya, or Frigg, is drawn by two cats. She was goddess of love and luck, very properly associated with a cat. The cat is greatly honored in the domestic hearth, but in surprising in courtship and fearless in meeting a rival. It is to be credited that Freya's cats were the wild variety? The matter is not so important as it looks but decidedly this is not the place for an excursion upon the date of the Assyrians.

In a very early saga we find a wicked man, Thorolf, defying the vengeance of his neighbors under protection of 20 cats. At length the chief of the district mustered 18 men and assailed the house. Thorolf posted his cats at the door. No doubt there was intercourse between the Egyptians and the Greeks. But in northern mythology the chariot of Freya, or Frigg, is drawn by two cats. She was goddess of love and luck, very properly associated with a cat. The cat is greatly honored in the domestic hearth, but in surprising in courtship and fearless in meeting a rival. It is to be credited that Freya's cats were the wild variety? The matter is not so important as it looks but decidedly this is not the place for an excursion upon the date of the Assyrians.

DEATH
 Can be averted.
 Health can be yours.
 Sickness will be to you unknown.
 To accomplish this, do two things.
 Keep your blood pure and your
 nerves strong and healthy.
 The result will be that every organ
 of the body will act perfectly.
 No remedy ever discovered will so
 effectually at the same time purify
 the blood and strengthen the nerves
 as **DR. CLARKE'S RED-IRON-PILLS.**
 They act quickly and surely, and
 without any of the disagreeable re-
 sults that often attend the use of
 iron.

RED-IRON-PILLS
MAKE RED CHEEKS

CITY OF PORTSMOUTH
STATE OF NEW HAMPSHIRE
ROCKINGHAM, SS.

THE MAYOR OF SAID CITY OF PORTS-
MOUTH, TO ROBERT E. HODGKINS,
SPECIAL POLICE OFFICER.

We command you forthwith either to
 kill or cause to be killed all dogs within
 said city, not licensed and collared, ac-
 cording to the provisions of an act en-
 titled: "An act to prevent the destruction
 of sheep and other damage by dogs,"
 passed by the legislature of this state at
 the session of 1891; and also to enter com-
 plaint against the owners or keepers of
 such dogs, and prosecute such owners or
 keepers before the police court of said
 city.

Hereof fail not or you will answer the
 penalty prescribed by law.
 Given under my hand and seal, this sec-
 ond day of May, in the year of our
 Lord, 1898.

MOVEMENT OF SAMPSON'S SHIPS.

Washington, May 5.—A sensation was
 caused yesterday by the news of the ar-
 rival of a vessel supposed to be the dis-
 patch boat McCulloch at Mrs. Bay, 40
 miles from Hong Kong, the cable termi-
 nus. The officials immediately fell into
 an air of expectancy, waiting for some
 word from Admiral Dewey that would
 not only confirm officially the stirring
 news of the battle of Manila as reported
 by the press, but also tell what happened
 since the cable was interrupted. There
 was no confirmation of the report.

The navy department has secured two
 vessels, the Australia and the City of
 Pekin, in San Francisco, which will be
 loaded with coal and supplies and rushed
 off to join Commodore Dewey's fleet.
 Whether or not they will carry troops
 will be determined positively when the
 commodore is heard from upon this mat-
 ter. An exceptionally large stock of
 ammunition will go on the City of Pekin.
 The first shipment of projectiles left
 New York Tuesday and additional ships-
 ment will be made until the full quota
 of powder and shot is in San Fran-
 cisco. There will be a total of more than
 20,000 projectiles of various caliber and
 weight. For the four big eight-inch
 guns of the Olympia there will be 500
 eight-inch steel armor-piercing projec-
 tiles, weighing about 900 pounds each.
 For the six-inch guns of the Olympia,
 Baltimore and Boston and other ships,
 there will be 10,000 projectiles. The other
 shipments will include about 10,000 six-
 pound rifle balls, 2,000 five-inch shells,
 3,000 three-pound balls and 3,000 one-
 pound balls.

The department is fortunate in having
 laid in an ample stock of projectiles of
 all weights and sizes, so that there will
 be no delay in getting a full supply ready
 for shipment. The supply of powder is
 not so readily obtained, as powder has
 been distributed to the several fleets and
 ships as fast as it has come from the
 powder mill, but owing to the emer-
 gency in the case of the Asiatic fleet,
 powder intended for other uses will be
 forwarded to San Francisco and sent to
 Dewey. The recent explosions of mills
 have not crippled the navy department
 in securing supplies of powder, but they
 have caused some delay in filling the
 orders of the war department.

No new official news has come to con-
 firm the report from Hawaii that the
 islands have been tendered to the United
 States for war uses. It is said that, if
 the incoming mail brought the proposi-
 tion to San Francisco, it would be re-
 ceived by the telegraph there on ac-
 count of its importance, but would be
 forwarded by the railway mails, which
 would bring it here in about five days.
 Without exception naval officials would
 welcome the possession of Hawaii at this
 moment as affording a magnificent base
 for naval operations in the Pacific; but
 it is said that President Dole's proposi-
 tion must be submitted to congress, so
 that it will be for the legislative branch
 in the end to pass upon this offer.

The law for the formation of the volun-
 ter army leaves it discretionary with
 the president as to whether three or more
 regiments shall constitute a brigade,
 and also whether two or three divisions
 shall constitute a corps. Those ques-
 tions determined upon finally, the as-
 signment of the major and brigadier gen-
 erals will be fixed readily. General
 Miles, commanding the army, favors
 the formation of seven corps in all, two
 in the regular army and five in the volun-
 teers. In other quarters, it has been
 suggested that the volunteers be di-
 vided into three corps. A major general
 commands either a corps or a division,
 so that the plan determined upon will
 provide for a sufficient number of these
 to give assignments to the officers of the
 higher grades.

The foreign experts are much interest-
 ed in the approaching movements in
 Cuba. From a strategic standpoint one
 of them thinks it would be unwise to at-
 tempt a military landing at any point
 within the present line of blockade. The
 danger of such a landing he points out
 to be that railways run along the coast
 of Cuba, connecting Havana with all the
 points covered by the blockade. These
 railways are in the hands of the Span-
 ish, and would permit them to mass
 20,000 soldiers at any point threatened
 with a landing. For this reason he con-
 sider it an expedient move to take a
 port remote from the present blockade,
 such as Santiago. It would be difficult
 to prevent a landing there in time
 to prevent a landing. Once taken the
 American forces would have a base from
 which to supply arms and ammunition
 to the insurgents. A base from which
 the insurgents could be fully equipped
 would be of far greater value than one
 for offensive operations by the American
 troops.

MOVEMENT OF SAMPSON'S SHIPS.

Washington, May 5.—A sensation was
 caused yesterday by the news of the ar-
 rival of a vessel supposed to be the dis-
 patch boat McCulloch at Mrs. Bay, 40
 miles from Hong Kong, the cable termi-
 nus. The officials immediately fell into
 an air of expectancy, waiting for some
 word from Admiral Dewey that would
 not only confirm officially the stirring
 news of the battle of Manila as reported
 by the press, but also tell what happened
 since the cable was interrupted. There
 was no confirmation of the report.

The navy department has secured two
 vessels, the Australia and the City of
 Pekin, in San Francisco, which will be
 loaded with coal and supplies and rushed
 off to join Commodore Dewey's fleet.
 Whether or not they will carry troops
 will be determined positively when the
 commodore is heard from upon this mat-
 ter. An exceptionally large stock of
 ammunition will go on the City of Pekin.
 The first shipment of projectiles left
 New York Tuesday and additional ships-
 ment will be made until the full quota
 of powder and shot is in San Fran-
 cisco. There will be a total of more than
 20,000 projectiles of various caliber and
 weight. For the four big eight-inch
 guns of the Olympia there will be 500
 eight-inch steel armor-piercing projec-
 tiles, weighing about 900 pounds each.
 For the six-inch guns of the Olympia,
 Baltimore and Boston and other ships,
 there will be 10,000 projectiles. The other
 shipments will include about 10,000 six-
 pound rifle balls, 2,000 five-inch shells,
 3,000 three-pound balls and 3,000 one-
 pound balls.

The department is fortunate in having
 laid in an ample stock of projectiles of
 all weights and sizes, so that there will
 be no delay in getting a full supply ready
 for shipment. The supply of powder is
 not so readily obtained, as powder has
 been distributed to the several fleets and
 ships as fast as it has come from the
 powder mill, but owing to the emer-
 gency in the case of the Asiatic fleet,
 powder intended for other uses will be
 forwarded to San Francisco and sent to
 Dewey. The recent explosions of mills
 have not crippled the navy department
 in securing supplies of powder, but they
 have caused some delay in filling the
 orders of the war department.

No new official news has come to con-
 firm the report from Hawaii that the
 islands have been tendered to the United
 States for war uses. It is said that, if
 the incoming mail brought the proposi-
 tion to San Francisco, it would be re-
 ceived by the telegraph there on ac-
 count of its importance, but would be
 forwarded by the railway mails, which
 would bring it here in about five days.
 Without exception naval officials would
 welcome the possession of Hawaii at this
 moment as affording a magnificent base
 for naval operations in the Pacific; but
 it is said that President Dole's proposi-
 tion must be submitted to congress, so
 that it will be for the legislative branch
 in the end to pass upon this offer.

Of thee we sing.
Land of the pilgrims' pride,
Land where our fathers died—
From every mountain side—
Let freedom ring!

Doing Their Bit

At the meeting of Storer Post, No. 1, G. A. R., held last evening, the following resolution was unanimously passed:
That, Whereas, Co. A, Third regiment, N. H. N. G., has this day left our midst to go into camp previous to being mustered into the U. S. service; therefore, be it
Resolved, That we extend to every member thereof our hearty sympathy and support, and will render such aid to the fund as may be required, or in our power to grant. And any other service that may be necessary, the Post will cheerfully perform.
And be it further resolved: That the Adjutant forward a copy of this resolution to the Captain of Co. A, Third regiment, N. H. N. G., to be read to the company on parade.

Keeping Open After Hours

Officers McCaffery and Quinn, while patrolling their beats on Congress street Tuesday evening, found the proprietor of the Langdon house, Eliza T. Cotton, selling over the bar at 11:45. The matter was reported to be night watch, who in turn notified Marshal Entwistle. Wednesday afternoon the hotel was searched by Marshal Entwistle and Assistant Marshal West, and spirituous liquors were found. The proprietor was notified to appear in police court this Thursday afternoon to answer to two counts, one for selling spirituous liquors, and for breaking the city ordinance in regard to keeping open after hours.

Admiral Carpenter Called

Rear Admiral C. C. Carpenter, U. S. N., commandant of the navy yard, paid Captain E. S. Curtis of Battery K, U. S. A., at Fort Constitution on Wednesday morning a pleasant visit. He made the trip down river on the navy yard ferry.

THE EAGLE SCREAMS.
Strawberry Bank Honors the
Victory of Brave Dewey.
Huge Bon Fire on the Parade and a
Din of Bells, Horns and Guns.

General Weyler, arch assassin and promoter of the scientific starvation of women and children, late of Cuba, but now of Spain, was the centre of attraction of several thousand people on the parade on Wednesday evening, the 4th inst., for about five minutes. He did not last any longer because the bonfire of which he formed the apex was eager to get at him, and soon had him in its clutches.

General Weyler wore white pantaloons of a dirty shade and held in one hand a huge fire cracker. He was fairly hoist by his own petard, for when the flames reached the cracker, it exploded so forcibly that the Spaniard's head was blown off.

The crowd around the Parade gave vent to a rousing cheer when Weyler came to his end. The edify was made by several of the young Yankees who, though not yet large enough to read Latin or Spanish, still know all about Weyler and his abominable crimes and wished to show their feelings toward him.

The bonfire was one of the largest ever lighted on the Parade. It was in honor of Commodore Dewey's glorious victory at Manila. The huge pile of boxes, barrels and crates sent up a spear of flame fifty feet high and made everything around the Parade and down Congress street to fleet as brilliant as day.

The collection of the pile devolved upon the youngsters, and they worked nobly. From all parts of the business sections they came scurrying with the inflammable stuff. Some of them found an old cart, which was promptly contributed to the stack.

The fire was lighted a few minutes after the nine o'clock curfew. With the touching of the first match, the bell in the North church tower began ringing and continued to reverberate till the heap had been reduced to a big bed of glowing coals. For a half hour the flames shot skyward.

The crowd cheered lustily when the boxes began to burn. Many dynamite crackers were tossed into the flames. Most of the crowd stayed till it was all over. When the fire was at its height, confirmation of the capture of Manila by Dewey was received over the wires. The crowd would have greeted the news vociferously had it been generally known. As it was, the celebration was most timely.

Those who promoted the blaze had in mind, besides the gallant commodore, Client, Windler, Capt. Walker and the other Portsmouth men on his fleet, who did their full share in achieving the victory.

A larger crowd has never before gathered at a bonfire on the Parade. The pavements were packed from curb to wall, and thousands of people stood in the street. In the upper windows of the blocks were bevy of women, enjoying the brilliant spectacle. There must have been fully one thousand or more small boys around the blaze. Where so many came from is a mystery. With such an army of little Yanks anxious to reduce Weyler to cinders and express their delight at Commodore Dewey's achievement, Portsmouth need have no fear of Spanish invasion.

It was a most perfect night for a bonfire. No wind was stirring, and the sparks did not scatter. The flame held together and made a spectacular effect.

Old Strawberry Bank has thus indicated her grateful remembrance of her sons and fellow sailors in their hour of triumph. If Admiral Sampson and Commodore Schley duplicate Commodore Dewey's feat, the same crowd will turn cheerfully out and hunt up more boxes and fire-crackers. When the Spanish navy has been wiped off the sea. It would not be surprising if young America even invaded the coal pockets for material to put on their bonfire.

SPARKS FROM THE FIRE.

C. Fred Hussey furnished the cannon crackers.

Citizens of all classes lent a hand to make the affair a success.

It was not a bad celebration for one planned in such a brief time.

H. C. Hopkins helped the fire along by providing five gallons of oil.

Wood Bros. sent one of their double teams with two loads of old boxes and barrels.

"Jack" Newell, "Bert" Entwistle and Charlie Hatch managed the ringing of the North church bell.

A number of well-known citizens assisted in arranging the fuel, and the young Americans worked like beavers. In order to prevent any possible danger of a fire on any of the buildings, Chief Engineer Randall ordered Kearsarge hose wagon out and stationed it on Daniel street.

All the merchants helped make the celebration a success, and immense

piles of boxes were furnished by Joseph Berry, G. B. French, H. C. Hopkins, L. E. Staples, W. H. Fay, John Griffin, Henry Poyser & Son, D. F. Borthwick, M. P. Alkon, H. C. Locke, F. W. Knight, Hoyt & Dow, Globe Grocery, J. M. Vaughan, Pettigrew Brothers, Thomas McCue, E. M. Fisher, H. R. Stoddard, H. C. Hewitt, W. W. McIntire, H. F. Wendell, C. Fred Duncan, W. E. Paul, and many others.

Rev. and Mrs. Treadwell Walden were tendered a reception at the rectory on State street on Wednesday evening, by the ladies of St. John's parish. Eastman's orchestra furnished the music and a most delightful evening was passed.

CITY BRIEFS.

We have heard of the Spaniard of Cadiz, Who plays a guitar to the ladies— He will soon change his tune, Sigh no more to the moon, For, like Orpheus, he'll wander in hades. That bonfire was a rouser. Fruit trees will soon be in blossom. Butler—Real estate and insurance. Strawberry festivals are the fad now. Ladies and gents box calf shoes for \$2.00 at Knights.

A good cigar is man's enjoyment. Next time try Dowd's Honest 10.

Portsmouth was well represented at the musicale in Kittery last evening.

Fred L. Wood has the contract for a big tin roofing job in Newington.

Strawberries are becoming more plentiful and the price is coming down.

The light of the big fire on the Parade last evening was plainly seen in York.

The railing of the North Mill bridge has been repaired and is ready to be painted.

Probably the brook trout are enjoying this sort of weather as much as any living thing.

Insurance adjusters were in town yesterday fixing up the losses on the Flocking block.

Coal rates from New York to this city are \$1.50 a ton against 60 cents two weeks ago.

The "S. G." London is made of the choicest stock and is the best ten-cent cigar in the market.

Dogs that have not been licensed are now in danger of being gathered in and shot by the dog catcher.

Thirty-four years ago today the Stratford Guards of Dover arrived in town and went to Fort Constitution.

The doors of the North church received a blistering last evening. The heat from the bon fire was intense.

Sampson may have sailed into the unknown, but it's safe to say he'll be making history before many hours.

Supt. Trafson of the fire alarm telegraph says there was no attempt made to ring in an alarm from box 78 on Wednesday.

Have your shoes repaired by John W. Mott, 34 Congress street. Satisfaction guaranteed. Hand-sewed work a specialty.
